

Hello Polish friends,

How are you? In the classroom we are 25 students. We are 9 and 10, and we will be 11 next year.

We study in a medium classroom and we are very talkative. We go to Cerveto School. The Cerveto is very funny. The school is very big. We are three schools in one. We have 3 playgrounds, they are very big and lot of classrooms. The school has got one dinning-room. Cerveto is divided into 3 parts: pre-school, primary and secondary school.

What subjects do you have? Have you got Catalan or Spanish in your timetable? Have you got lot of homework? Is your school private?

We live in Granollers in Catalonia. The school is close to the centre of Granollers. No all kids live in Granollers. There's a square place, 'Porxada', where we play. Granollers is a medium city and there are lots of schools and shops. Granollers has the second best handball team and is the capital city of the Valles Oriental. Is your city big? Do you like Poland and its flag? What is the typical food from Poland? Do you have typical parties and typical clothes and dance?

Good luck, bye bye 😊 5th B
